

Quality 308 Ammo

Pricing of 7/13/2014

I needed some accurate 308 ammo, this does not include bulk or “surplus” ammo. This research was for “precision” ammo. Hunting ammo was not specifically researched.

The web sites I researched were: ammo.net, ableammo.com, natchezss.comammunitiontogo.com, bulkammo.comcheaperthandirt.com, sportsmansguide.com and Georgia-arms.com, Academy Sports, MC Sports and Bass Pro, all places I have bought in the past. Bass Pro and MC Sports do not have columns since they were so high in price.

These were in stock as of the 13th, if the round was not in stock it was not priced.

A couple of sights were close in pricing, I included them in case you are ordering from that site and feel less shipping might be an option.
