

223 ammo pricing

Once again, I skipped any metal case ammo, also if it was not in stock I skipped it too.

Red prices are the best value based on what is available. I searched the same companies as I did for the pistol ammo.

For brevity, I am skipping the non best values. However I do include the best value per packaging (20 round, 50 round et al unless there is no best value (ie 5 boxes of 20 was better than 100 rounds bulk).
